Name: Vibhav Sahasrabudhe
Roll no: 31268; **Batch:** N2

Comparison of various popular websites, and their features:

Sr.No.	Website URL	Things liked in the website	Things disliked in the website	Overall rating (Good/Bad)
1	**Stack Overflow**	Large developer community, extensive Q&A database	Outdated UI, slightly toxic feedback	Good
2	**SonyLIV**	Indian streaming platform, live TV, exclusive content	Ad interruptions in the free tier, subscription cost, bad TV UI	Bad
3	**Zomato**	Restaurant reviews, food delivery platform	Inconsistent restaurant ratings, delivery issues	Good
4	**Coursera**	Diverse courses, partnerships with top universities, progress tracker	Some courses can be expensive, variable quality	Good
5	**Snapchat**	Friends circle, creative features, younger user base	Limited content discoverability, privacy concerns, addictive	Bad
6	**Lenskart**	Eyeglasses, contact lenses, eyewear solutions	Limited frame variety, occasional prescription issues	Good
7	**Netflix**	Unique flowing UI, dynamic colors, good streaming quality	Works poorly on mobile, autoplay feature is annoying	Good

8	**LeetCode**	Coding challenges, interview preparation, good user interface	Emphasis on algorithmic challenges, limited real-world scenarios	Good
9	**Prime Video**	Diverse content, included with Amazon Prime membership	Interface can be overwhelming, additional fees for certain content	Good
10	**Boat**	Audio products, accessories	Limited product range outside audio products	Good
11	**Voter Portal**	Voter registration, election information	User interface can be improved, occasional glitches	Good
12	**Unacademy**	Indian educational platform, diverse content	Quality inconsistency, subjective course ratings	Good
13	**Codeforces**	Competitive programming platform, contests	Steeper learning curve, limited beginner resources, user interface is not good	Good
14	**Khan Academy**	Free educational content, interactive exercises	Limited advanced courses, self-paced learning	Good
15	**LinkedIn**	Professional networking, job opportunities, industry updates	Limited personal content sharing, occasional spam	Good

16	**Alibaba**	Bulk purchasing, global supplier network	Quality control challenges, language barriers	Good
17	**Twitter**	Real-time updates, diverse discussions, networking	Toxicity, abuse, misinformation	Good
18	**YouTube**	Diverse content, video sharing platform	Ad overload, occasional content moderation issues	Good
19	**WHO**	Global health initiatives, reliable health information	Bureaucratic challenges, funding issues	Good
20	**Udemy**	Broad range of courses, frequent discounts	Quality inconsistency between courses, variable pricing	Good
21	**CodeChef**	Competitive programming challenges, coding contests	Varied problem quality, limited interactive learning	Good
22	**Walmart**	Affordable prices, good user interface	Limited third-party seller monitoring	Good
23	**Facebook**	Large user base, diverse content, social connections	Privacy concerns, misinformation spread	Good

24	Instagram	Visual content, influencer marketing, community building	Image-centric, potential negative impact on mental health	Good
25	edX	High-quality courses, verified certificates	Some courses are costly, rigorous schedule	Good
26	ICRC	Humanitarian aid, disaster response	Administrative challenges, controversies	Good
27	Amazon India	Vast product selection, fast shipping, customer reviews, good user interface	Unauthorized products, third-party seller issues	Good
28	Netflix	Extensive library, original content, personalized recommendations	Monthly subscription cost, content rotation	Good
29	HackerRank	Coding challenges, skill-based assessments	Some challenges too difficult for beginners	Good
30	UIDAI	Aadhaar-related services, identity authentication	Privacy concerns, data security issues	Good
31	Pinterest	Visual discovery, idea-sharing platform	Limited personal interaction, less dynamic than other platforms	Good
